Profile

I was born in Taranto and grew up in goal: 14 years of football, from the Lecce and Cagliari youth academies to Serie C with Taranto. Today I study International Business at H-FARM College and I am building Zyro, a B2B startup in industrial robotics. Football gave me a competitive, resilient mindset, and I am always ready to learn and grow.

Ventures and projects

Zyro, Founder
B2B startup · Industrial robotics · 2026 – now

- Marketplace connecting Italian manufacturing SMEs with industrial robotics system integrators.
- Developed the MVP ahead of market launch; selected for the H-FARM College Pre-Accelerator program.
- Building the go-to-market: LinkedIn prospecting and AI-powered lead generation.

Hangover, co-organiser
University events collective · H-FARM College · 2026

- One of a team of six organising university events.
- Responsible, with one partner, for content, social media, marketing and visual direction.
